One Year in Advance. . . . \$1.00

THURSDAY, DECEMBER 30, 1909.

Mexico seems to look kindly upon Ex-President Zelaya of Nicaragua. A fexican gunboat took him from Nicgragua when that vicinity became unalthy for him, and the Mexican captal effords him a safe refuge. This exican action looks very like a delibrate affront to this country which reatly desired that he be brought to trial under the Nicaraguan laws.

the stock market, Monday, a Operators who had "sold stort", were squeezed by a consider-able advance, and are inclined to "squedt." As both sides were specuating-gambling it is called by some imly. One or the other party to all

nstances of public improvements in Bridgeport. In which "graft" did not appear, though it is barely possible that had the Taxpayers' League been then in existence and active, something of the kind might have been

one of the charter members, the others being Edwin Chatterton, Henry J.
Kittendorf, John Browning, John E.
Chard, Charles C. Lowell. William
Lowell, Hiram Mansfield, George
Knevals, George Dinnegar and Joshun
Newell. Nearly all of these are dead.
and the passing of Mr. Rand leaves
another vacancy in their number.

NEWEST NOTES OF SCIENCE.

The world's first radium research institute, that at Vienna, built with a private donation of \$100,000, will be opened in the near future. It will contain 28 laboratories.

A test for neurasthenia, according to an English court, is to make a

THE EVENING FARMER "ADVICE DISCREET" TO TAXPAYERS' LEAGUE

The Taxpayers' League seems quiescent-at least on the surface No advertisements of burning issues; no lucubrations from the "acting secretary"-retired, we regret to say, for his cacaothes scribendi was really interesting and his duel of paper pellets with Alderman Meyer actually amusing-in brief and in popular phrase, "nothing do-

Can it be that the league was organized for but one purpose despite its comprehensive declaration of purposes, that lonely and isolated one being defeat of the increase in firemen's salaries? Perish the thought! So august a body as the original band of municiamount when compared with many other items of municipal expenvision over city affairs. Would it not be singular if upon the Farmer should devolve the duty of holding the league to a strict performance of its promised beneficences?

If the league really lacks issues since its defeat upon the firequestion, the Farmer suggests that it take up the matter of tax equalization which is of present importance and which has league's projectors. Can it be a fact, as reported, that the league has, through the construction of its executive board, got beyond the control of the original projectors and thus might take a position hostile to their secret wishes? If so,

You to unfold the anguish of your heart; Mishaps are master'd by advice discrect, And counsel mit gates the greatest smart.

Disclaiming all intent of impertinence, the Farmer promises such "advice discreet" as may be within its power, and now fulfils in part this promise by advising that the league take the affirmative upon the issue of tax equalization which, in view of the city's financial needs, is of urgent importance.

the losses should take the matter calmity. One or the other party to all suck operations must of necessity lose.

Census Director Durand is confront- the latest developments in the operations of the proposoliton for increasing the capacities and courses of the latest severe the latest proposoliton for increasing the capacities and courses of the latest severe the latest proposed State in Bridgeoport and New Britain, the benefit in Bridgeoport and New Britain, the capacities of the manual of the server than latest the proposed State in Bridgeoport and New Britain, the capacities of the manual of the latest severe the benefit of the manual of the latest severe the latest severe the benefit of the manual of the latest severe the latest severe

It is greatly to be regretted that no public enterprise can be projected and consummated without this appailing loss, called "graft": Graft is not necessarily an illegal expenditure of money; but it is that unnecessary vesteful use which characterizes the construction of every public venture. At least 40 per dent of all the money appropriated for public use is lost in graft. All things could be possible if this frightful leak could be stopped—toods, canals, libraries, asylums and bospitals—all these could be built out of graft could it only be saved.

I may be that Judge Howard's assion is too broad. We can recall instances of public improvements in

passing of Mr. Rand leaves vacancy in their number.
